

May XX, 2018

Dear CVA Employee,

We're excited to let you know about an update to your VSP® Vision Care plan through Central Valley Ag. Effective **June 1, 2018**, you'll have an enhanced benefit. With the addition of **ProTec Safety®**, you're able to get a pair of prescription safety glasses through a VSP network doctor, alongside your benefit for prescription glasses or contacts.

You'll enjoy safety glasses after a **\$30 copay**. Choose a safety frame from your VSP doctor's **ProTec Eyewear®** collection to get it **fully covered**. Plus, **lens enhancements**, like photochromic adaptive lenses, scratch-resistant coating, are available **fully covered**. Ask your VSP doctor which covered lens enhancements fit your safety eyewear needs.

**It's easy to use your ProTec Safety benefit:**

- **Create an account at vsp.com.** Review your vision benefit and access your eligibility and coverage information. You'll also find a benefit summary attached.
- **Find the VSP network doctor who's right for you.** Schedule your annual eye exam<sup>1</sup>, and then view frames in the ProTec Eyewear catalog on **vsp.com**.
- **At your appointment, tell them you have VSP.** There's no ID card needed! If you'd like a card as a reference, you can print one on **vsp.com**.
- For those members who've already receive their annual exam, visit a VSP network doctor to order your **ProTec Safety frames**.

**That's it!** There are no claim forms to complete and you'll maximize your benefit when you see a VSP network doctor.<sup>2</sup>

We're committed to delivering you access to the eye care you deserve, the eyewear choices you want, and the savings you need. For details on your coverage, visit **vsp.com** or call **800.877.7195**.

Sincerely,

*VSP Vision Care*

1. ProTec Safety Plan is a materials plan to be used as an added specialty benefit with your primary, full-service VSP plan.

2. ProTec Eyewear is not available through participating retail chain locations. If you choose to see an out-of-network provider, your coverage will be less than with a VSP network doctor.
